NOTE: All grade 10 students are required to test and will need both the ELA and math test booklets. Estimates for grade 10 are from the Department of Finance. Repeat test takers in grades 11 and 12 will be taking one or both parts of the test until both parts are passed. The estimates for the initial grade 10 test takers are based on pass rates of 60% for math and 80% for ELA and the pass rates for repeat test takers are based on 2002-03 data of 30% for math and 40% for ELA.
